column-mounted unframed & original framed element basics

Expansion Desking offers a wide range of space division products. Column-Mounted Unframed and Original Framed elements can be mounted to structural columns in side-by-side or vertical combinations. Screens of various heights allow the right balance of privacy and interaction.

- Elements can only be installed on straight edges of Modular Desks products
- Original Framed elements of height 37” (except RPSF) come in two pieces
- All Unframed and Original Framed Elements are 1” thick
- All column and element dimensions listed are nominal: elements should be specified according to column height and worksurface width, refer to the bottom of this page
- Base element must be a full-width single element

Original Framed Elements – Perforated Metal (RPSP)
- Available in perforated holes pattern only
- Four patterns available:
  - Square Solo (201)
  - Dot Solo (401)
  - Large Dot (402)
  - Perforated Holes (601)

Original Framed Elements – Whiteboard (RPSW)
- Use dry-erase markers only
- Accept magnets

Original Framed Elements – Translucent (RPST)
Available Standard Clear or Ribbed Clear

Unframed Elements – Fabric (RPSF)
- Two-sided with same fabric
- Tackable on both sides

Full Size – Back
(element matches width of worksurface)

Recessed Size – Back
(element applied flush with edge of columns)

Recessed Size – Lateral

expansion desking price guide – September 25, 2017
column-mounted unframed & original framed
element basics (continued)

**Structural Column (RPSC)**
- To mount components above the worksurface:
  - overhead cabinets
  - shelves
  - countertops
  - elements
  - accessory rails
- 37” or 52” high columns are recommended for all overhead storage applications
- 52” high columns are required when overhead storage or shelves are stacked
- Can be used to route electrical and data cables
- The central groove may be used for the light cords
- Requires no tool for installation

**Standard Element Connector Kit – Unframed and Original Frame (RPAJS)**
Fastens elements of identical width to create vertical mix-and-match combinations

**Element End Trim – Original Frame (RPET)**
- Provides a finished covering for the end of an element(s)
- Cannot be used with Unframed Elements – Fabric (RPSF)

**Lateral Stabilizer – Elements (RYCE)**
- Stabilizes elements mounted on the side of a desk
- Provides a finished covering for the end of an element(s)
- Available in single or shared configuration

**Combination Element Connector Kit – Unframed and Original Frame (RPAJC)**
Used to create side-by-side combinations of elements in layers above the base element

**Column Extension (RPCE)**
To mount elements only, not for overhead storage or shelves

**Structural Column (RPSC)**
To mount components above the worksurface:
- overhead cabinets
- shelves
- countertops
- elements
- accessory rails
- 37” or 52” high columns are recommended for all overhead storage applications
- 52” high columns are required when overhead storage or shelves are stacked
- Can be used to route electrical and data cables
- The central groove may be used for the light cords
- Requires no tool for installation

**Standard Element Connector Kit – Unframed and Original Frame (RPAJS)**
Fastens elements of identical width to create vertical mix-and-match combinations

**Element End Trim – Original Frame (RPET)**
- Provides a finished covering for the end of an element(s)
- Cannot be used with Unframed Elements – Fabric (RPSF)

**Lateral Stabilizer – Elements (RYCE)**
- Stabilizes elements mounted on the side of a desk
- Provides a finished covering for the end of an element(s)
- Available in single or shared configuration

**Combination Element Connector Kit – Unframed and Original Frame (RPAJC)**
Used to create side-by-side combinations of elements in layers above the base element

**Column Extension (RPCE)**
To mount elements only, not for overhead storage or shelves
Expansion Desking offers a wide range of space division products. Framed elements can be mounted to structural columns in vertical combinations only. Elements of various heights allow the right balance of privacy and interaction.

- Framed Elements are 1” or 2” thick
- Framed Elements can only be installed on-module and on straight edges
- All element dimensions listed are nominal: elements should be specified according to column height and worksurface width, refer on the following pages
2” Framed Elements can only be used between two workstations made with Modular Desks

**Lateral Stabilizer – Elements (RYCE)**
- Stabilizes elements mounted on the side of a desk and provides a finished covering for the end of an element(s)
- Available in single or shared configuration
- Single configuration is used to stabilize 1” Framed Elements
- Shared configuration is used to stabilize 2” Framed Elements
- Must be applied to a full gable
- Can be installed on Fixed-Height Desks only

**2” Framed Elements – Glass (RYSF)**
- Available 5/32” (4 mm) tempered glass Clear (CL) or Frosted (FT)
- Fills the gap between two structural columns for a nicer aesthetic

**2” Framed Elements – Fabric (RYSF)**
- Two-sided with same fabric
- Tackable on both sides
- Fills the gap between two structural columns and overhead cabinets for a nicer aesthetic
Expansion Desking provides a variety of casual screens for space division in freestanding applications.

- All screen dimensions listed are nominal
- Match 42” or 51” high datum line

### Add-On Screens for Modular Desk (RPSAG)
- A mounted screen used for back or perpendicular territorial screening
- Intended to sit on the top of the modular desks
- When Desk-Mounted option is specified, screens provide 13” or 22” of privacy above modular desk (Shown)
- When Shelf-Mounted option is specified, screens provide 6” or 15” of privacy above Desk-Mounted Shelf
- Even widths are actual; odd widths are 1/2” smaller
- Available with a 1/4” (6 mm) thick single-sided etched tempered glass on top

### Screen with Shelf Height (Desk-Mounted option) also available and provides 7” of privacy above modular desk

### Cannot be mounted on a 1” Floor Screen or 2” Freestanding Screens

### Worksurface Edge Screens (RPSWG or RPSWL)
- A territorial screen that is mounted on the back edge of a worksurface that must be free of any sub-structure
- Provide partial privacy from 8” below desk up to 13” or 22” above desk

### Cannot be used in combination with a Suspended Modesty Panel
- Two finish styles are available: Solid (Laminate) and Frosted glass
Expansion Desking provides a variety of casual screens for space division in freestanding application.

- All screen dimensions listed are nominal
- These screens are an ideal solution for space division in "benching" applications where various numbers of users occupy the workstation
- Match 42" or 51" high datum line
- Can be used with all Single-Sided or Shared Spine Desks, Desk-Mounted Shelf (RSBMS) and Rectangular Worksurfaces (RTLDDL or RLTDC). The restrictions apply when specifying with Spine Desks. See applications in the Application Guide
- Cannot be used with Modular Desks or Credenzas
- Central Screens are shipped knocked-down

Central Screens or Central Framed Screens
- A central screen used for territorial screening
- Intended to sit on the top between two worksurfaces
- Three mounting options are available:
  - Desk-Mounted (D)
  - Shelf-Mounted (S)
  - Worksurface-Mounted (W)
- When Desk- or Worksurface- Mounted option is specified, screens provide 7", 13" or 22" of privacy above Spine Desk
- When Shelf-Mounted option is specified, screens provide 6" or 15" of privacy above Desk-Mounted Shelf
- Desk-Mounted option is available at 7" height to match Desk-Mounted Shelf height
- Cannot be mounted on a 1" Floor Screens or 2" Freestanding Screens
- A Markerboard – Screen Mounted can be specified separately and can be installed on Solid Central Screen for Spine Desk only (RCSBLN)

Central Framed Screens for Spine Desk – Glass (RCFBG)
- Available with two 5/32" (4 mm) thick Frosted single-sided etched tempered glass facing inward of screen assembly or Back Painted tempered glass
- Back-Painted can be used as a markerboard. Only dry erasable markers can be used

Central Framed Screens for Spine Desk – Fabric (RCFBF)
- Two-sided with same fabric
- Tackable on both sides

Central Framed Screens for Spine Desk – Magnetic Glass (RCFBM)
- Accept rare earth magnets
- Only dry erase markers can be used
- Available with two 5/32" (4 mm) Back-Painted tempered glass only laminated on steel sheets

Central Framed Screens for Spine Desk – Porcelain (RCFBP)
- Accept rare earth magnets
- Only dry erase markers can be used
- High quality porcelain

Central Screens for Spine Desk – Glass (RCSBG)
Available with a 1/4" (6 mm) thick single-sided etched tempered glass

Central Screens for Spine Desk – Solid (RCSBLN)
11/16" thick laminate panel
Expansion Desking provides a variety of casual screens for space division in freestanding application.

- All screen dimensions listed are nominal
- These screens are an ideal solution for perpendicular space division in “benching” applications where various numbers of users occupy the workstation
- Match 42” or 51” high datum line
- Can be used with all Single-Sided or Shared Spine Desks completed or not with Rectangular Worksurfaces (RTLDDL or RTLDC)
- Cannot be used with Modular Desks or Credenzas
- Lateral Screens are shipped knocked-down

Lateral Screens or Lateral Framed Screens for Spine Desk
- A lateral screen used for perpendicular territorial screening
- Intended to sit on the top between two worksurfaces
- Three mounting options are available:
  - From Two Central Screens (C)
  - From Rear Edge (E)
  - From Two Mounted Storage (M)
- The mounting option (M) is only applicable with Desk-Mounted Shelves, Elevated Desktop Cabinets and Sit-On Desk Cabinets
- Cannot be mounted on a 1” Floor Screens or 2” Freestanding Screens
- A Markerboard – Screen Mounted can be specified separately and can be installed on Solid Central Screen for Spine Desk only (RCSLLN)
Expansion Desking provides a variety of casual screens for space division in freestanding applications.

- All screen dimensions listed are nominal
- These screens are an ideal solution for space division in "benching" applications where various numbers of users occupy the workstation

1" Floor Screens
- Provide casual space division with various levels of privacy
- 42" or 51" high visual screen that provides privacy from floor level and is mounted to a worksurface on- or off-module
- Do not provide any support to the worksurface
- Two finish styles are available: all 1" thick Solid (Laminate) screen or 1" thick Solid (Laminate) base with a 1/4" (6 mm) Tempered Glass on top
- When 1" Floor Screen with Glass (RPSBG or RPSLG) are specified, the glass screens provide 9", 13" or 22" of privacy on its upper section
- Two glass finish styles are available: Clear or Frosted glass
- Frosted (FT) is a single-sided etched tempered glass which is facing inward of workstation
- A Markerboard – Screen Mounted can be specified separately and can be installed on Solid Panel section
columns & screens

markerboard – screen mounted basics

Expansion Desking offers a wide range of markerboards that can be mounted on 1” Floor Screen or Solid Central/Lateral Screen for Spine Desk.

- Attached to the solid vertical surface of a 1” Floor Screen or solid horizontal surface of a Central/Lateral Screen for Spine Desk only
- Cannot be used on building walls, 2” Freestanding Screens or Worksurface Edge Screens
- Match 42” or 51” high datum line

Glass Markerboard – Screen Mounted (RACMS)

- Are available in two glass markerboard styles:
  - Glass only (G):
    Provides erasable message board
  - Magnetic Glass (M):
    Provides erasable message board and accepts magnets
- Only dry erase markers can be used
- Are available in 5/32” (4 mm) Back-Painted tempered glass

Porcelain Markerboard – Screen Mounted (RACMSP)

- Provides erasable message board and accepts rare earth magnets
- Only dry erase markers can be used
- High quality Porcelain

Marker Holder for Markerboard (RACMT)

- Provides storage for dry-erase markers and eraser and can be installed on a Central/Lateral Screen for Spine Desk or Markerboard with the use of Velcro® bands
- Dry erase markers and eraser are not included
- Marker Holder is available in Foundation, Accent or Mica colors
markerboard – screen mounted applications

- Can be mounted onto a single 1” Floor Screen or Central/Lateral Screen for Spine Desk
- All Markerboards are 1/8” smaller than the screen on which it is mounted

Above Floor (01)
Markerboard starts at 1/8” (3 mm) from bottom edge of screen

Above Worksurface (30)
Markerboard starts at 1 3/16” (30 mm) above worksurface
2" Freestanding Screens may be used individually or connected to other 2" Freestanding Screens to divide workspaces.

Elements have identical finish on both sides

2" Freestanding Screens

- May be used connected to walls, desks or other freestanding screens
- Connection hardware from freestanding screen to Freestanding screen are included
- Five Connection Kits are available and can be specified separately:
  - Desk Connection Kit (RYCD)
  - Back Connection Kit (RYC_B)
  - Lateral Connection Kit (RYCL)
  - Height-Change Connection Kit (RYCH)
  - Wall Connection Kit (RYCW)
- Provide additional stability when freestanding screens are used in a straight run
- Fits all screen sizes and are installed at the end of a freestanding screen run

2" Freestanding Screens

- Fabric (two-sided and tackable)
  - All elements must be specified with the same fabric grade
  - When the Fabric Base Element is specified, the Cable Pass-Through is not available
- Glass (Clear or Frosted)
- Source Laminate colors

Foot – 2" Freestanding Screen (RYCF)

- Provides additional stability when freestanding screens are used in a straight run
- Fits all screen sizes and are installed at the end of a freestanding screen run
• All connection kits are used to stabilize either elements or freestanding screens
• All kits are available from 42” to 66” high, except for Back and Lateral Connection Kits

**Desk Connection Kit – 2” Freestanding Screen (RYCD)**
- Connects a freestanding screen to a desk with a column-mounted element
- Compatible with Unframed, Original Framed, 1” or 2” Framed Elements
- Can be mounted to the end of an element and a corner post (corner post connection) or on the end of an element and the front of a full gable (lateral connection)
- Can be installed on Fixed-Height Desks only
- Cannot allow height change if it is used in corner post connection. No height change is allowed for lateral screen connection

**Connection Examples:**
- Corner Post Connection
- Lateral Connection

**Lateral Connection Kit – 2” Freestanding Screen (RYCL)**
- Connects a freestanding screen on the side of a desk
- Can be installed on Fixed-Height Desks only

**Back Connection Kits – 2” Freestanding Screen (RYCB)**
- Connect a freestanding screen on the back of a Modular Desk (RYCM) or a Spine Desk – Single-Sided (RYCS)
- The dimension of the freestanding screen should be specified equal or wider than the desk

**Height-Change Connection Kit – 2” Freestanding Screen (RYCH)**
- Allows height change from a freestanding screen to another
- Connection in 180° only

**Wall Connection Kit – 2” Freestanding Screen (RYCW)**
- Connects a freestanding screen to a wall
Screens are available in a wide variety of fabric and finish colors. Codes must be included in the order.

unframed and original framed elements
add-on, central/lateral screen for spine desk, markerboard, worksurface edge, and 1” floor screens

**1” Floor Screens with Glass – Back or Lateral Connection**
- Solid base available in Source Laminate colors
- Top section available in 1/4” (6 mm) tempered glass Clear (CL) or Frosted (FT) finishes
- Mounting hardware is available in Foundation, Mica or Coordinate colors
- Frosted (FT) is a single-sided etched tempered glass which is facing inward of workstation
- Supporting Frame is available in Foundation or Mica colors

**Glass Markerboard – Screen Mounted**
- Available in Back-Painted Glass
- Mounted Extrusion match the glass finish

**Porcelain Markerboard – Screen Mounted**
- White Porcelain High Quality
- Mounting Extrusion comes Very White to match the porcelain finish
