

variable swivel multi-use work chair overview

The Swivel Work Multi-Use Chair is ideal where the functionality of a loaded Task Chair may be unnecessary for the application. Teknion’s first all-Plastic Swivel Work Chairs are height-adjustable, have a swivel mechanism and the patented integrated back tilt. Very White shell finish is not recommended for high traffic use or minimized maintenance. See “Multi-Use Chairs” section for Variable Conference Chairs and Application Guidelines for all Variable Chair types. See “Stacking Chairs” section for Variable Stacking Guest Chairs and Stacking Stools (Counter and Bar heights).

Variable Swivel Multi-Use Work Chair (NVRW)

statement of line

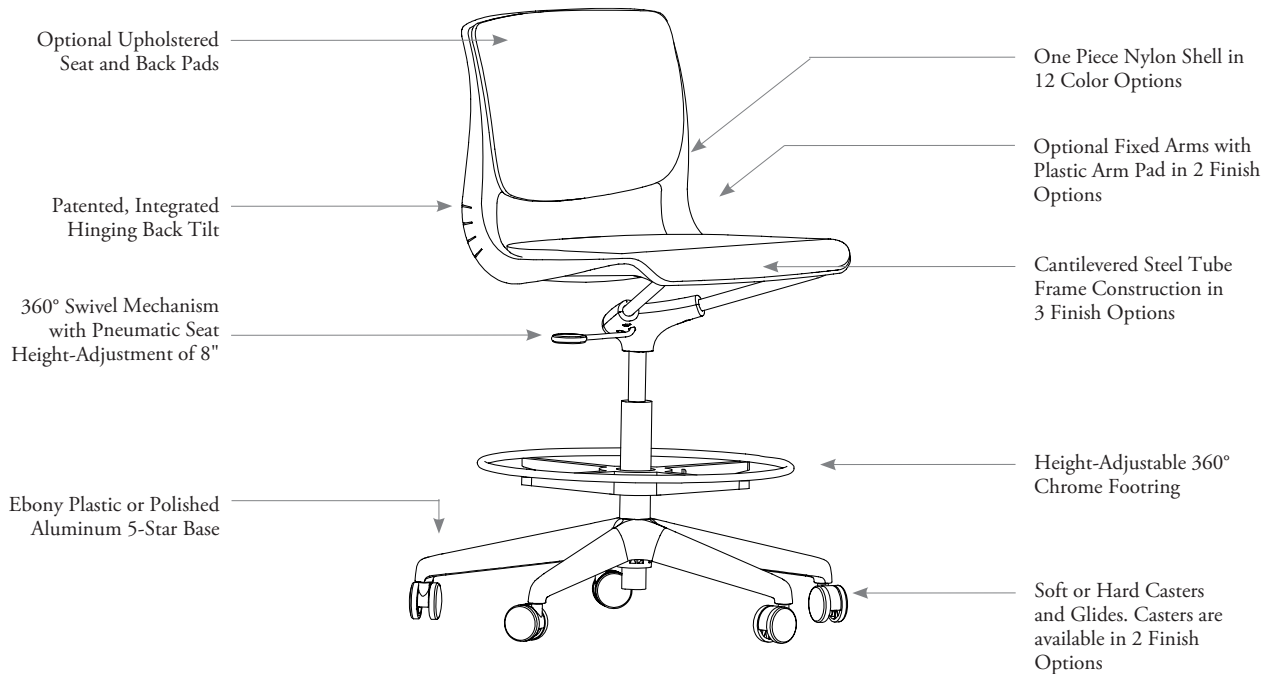

variable swivel multi-use work chair overview (continued)

The Swivel Multi-Use Stool is perfect for counter-height users such as tellers with walk-up guests as well as for those in working in labs. It is height-adjustable, includes the patented integrated back-tilt and a footring.

Very White shell finish is not recommended for high traffic use or minimized maintenance.

See “Multi-Use Chairs” section for Variable Conference Chairs, HybrED Chairs and Application Guidelines for all Variable Chair types
See “Stacking Chairs” section for Variable Stacking Guest Chairs and Stacking Stools (Counter and Bar heights).

variable swivel multi-use work chair adjustment features & instructions

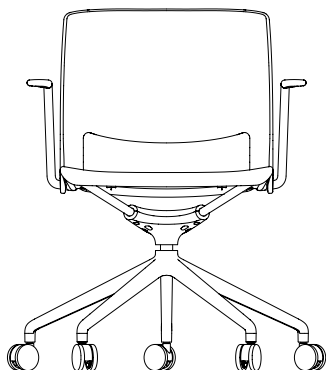

tilt adjustment

Actively recline in all Variable Chairs and return to an upright position with the patented Variable integrated hinged back-tilt. Amount of flex varies dependent on user.

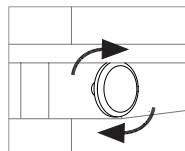

swivel mechanism

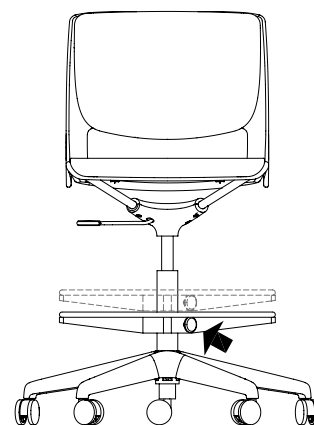

The Swivel Multi-Use Work Chair, Swivel Multi-Use Stool and Conference Chair freely swivel 360°.

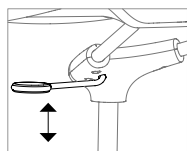

footring height-adjustment

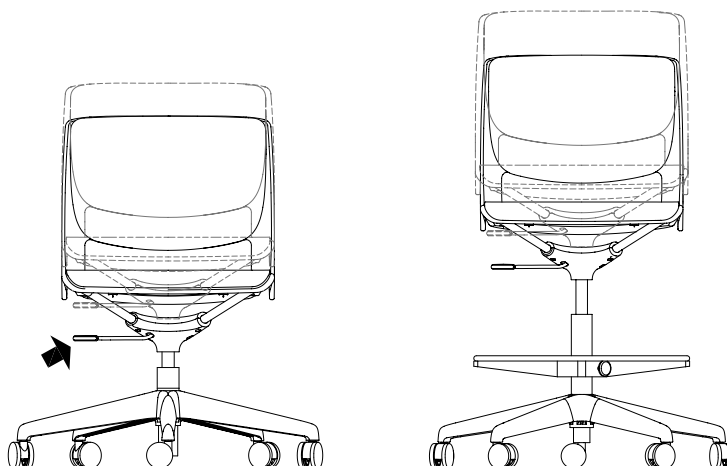

To raise or lower the footring on the Swivel Stool, turn the footring's knob counter-clockwise to release the footring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

seat height-adjustment

While in the seated position in the Swivel Multi-Use Chair or Stool, pull-up the paddle located below the chair on the right-hand side to lower the chair to the desired position. Depress the paddle. Transfer your weight to your feet and pull-up the paddle to raise the chair height. Depress the paddle.
