

U W S P B

Storage-to-Panel Bracket

The Storage-to-Panel Bracket attaches to the back or side of a storage unit and mounts into the vertical channel of a District panel to provide support to the panel wall.

WHAT'S INCLUDED

1 top bracket, 1 bottom bracket, 1 plate (for some standard configurations) and attachment hardware.

NOTES

A Perpendicular Back (B) application is **not** available with a Wire Gap (W).

Handedness is determined by the side of the panel (when facing it) onto which the storage is mounted.

For details as to which application to choose, see *Planning Basics in the Supports* section of the Application Guides chapter.

Xpress Available through *Teknion's Xpress Program*.
