

The Power Management Channel mounts to the center of the frame to allow access to the receptacles and for managing both power and data cables.

WHAT'S INCLUDED

Power Management Channel.

NOTES

Complete with two cut outs to align with the receptacle locations and two cut outs on the face for data ports.

Available in widths from 48"-96" to align with worksurface widths, however sizes are nominal.

The power management channel can accommodate a single sided, doubled sided and 120° planning. Note 60" width is the maximum width when planning with 120°.

Both electrical cables and data cables mount to the Power Tray, tray design separates and shields the Harnesses and Power Module from data cables as per North American Electrical Standards.

WWEPD Power Management Channel
