

CVLP Power Bar and Cover

This product includes four grey outlets and a cover providing casual above-worksurface power and data access in integrated electrical applications. The cover is used to mount the power bar through a fascia cut out.

WHAT'S INCLUDED

1 power bar, 1 – 12' black power cord with 90° plug, 1 cover, grey data blank plate.

WHAT'S EXCLUDED

Communication and data ports.

NOTES

This product can only be installed on W/R/S Laminate or Wood Fascias with Power and Data Cut Out.
