Sabrina is an infinitely classic, yet modern, mesh back task chair. Visually sculptural in frame and profile, Sabrina features an innovative ack rung structure symbolizing the interconnection of comfort and design. Sabrina’s design incorporates a ring-shaped backrest for both fix and flex comfort and an inner ring provides support and backwards bending body’s natural position, while the outer frame gently twists to either side for extra flexing.

**COM/COL material requirement**

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

sabrina adjustment features & instructions

reclining tension adjustment

Turning the grip found under the right side of the seat increases or reduces the resistance of the chair back while reclining and forward-tilt when specified. Rotate forward to tighten and backwards to loosen.

tilt lock and limiter

Turning the grip found under the left side of the seat locks and unlocks the recline and forward-tilt seat, when specified. Rotate forward to unlock and backward to lock. Unlock, completely recline and return to an upright to re-set.

arm height-adjustment

To adjust the height-adjustable arm height, press the button below either arm rest to raise or lower it to the desired position.

arm pad adjustment

While sitting in the chair, grab the height-adjustable arm pad from the top and slide it away from your body, along the length of the arm cap, or towards you to match your physical requirements. Once positioned, rotate the arm pad angle toward your body or away from you to match your physical requirements.

lumbar support

While sitting in the chair, put arms behind back to grab both sides of lumbar element, slide lumbar up or down to match your physical requirements.

seat depth adjustment

To adjust the seat depth, pull outward on the button below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release button to lock the seat in place.
sabrina adjustment features & instructions (continued)

seat height-adjustment

Seat height can be adjusted by pulling up on the lever below the seat on the right hand side. When this lever is pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling up on the lever with no weight on the seat allows it to rise.

fit and flex back

While the center frame firmly supports the user sitting, the slide frame allows passive forking right and left as the user twists, or flexes torsionally.

stool foot ring height

To raise or lower the stool’s foot ring, turn the foot ring’s knob counter-clockwise to release the foot ring and adjust the ring until you reach desired level. Turn the knob clockwise to lock in place.

**NSBY**  
Sabrina – Synchro-Tilt Task Chair

**FEATURES**
- Synchro-tilt mechanism (2.78:1 tilt ratio) with Tilt-Tension and Lock. Back recline up to 23°
- Optional forward tilt seat
- Innovative, organic structured back frame with FIT & FLEX capability
- Seat Depth Adjustment of 2”
- Standard pneumatic cylinder provides height-adjustment of 4”
- Ebony Plastic or Polished Aluminum base
- Optional Plastic height-adjustable arms with pivoting arm pads and arm pad depth adjustment or Fixed Polished Aluminum arms
- Optional 2-3/8” height-adjustable Lumbar Element, fixed mesh Headrest and Coat Hanger
- Hard casters are standard and well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete or tile

**NOTES**
Headrest finishes default to Back Mesh finish and Frame finish. Lumbar membrane is translucent Ebony finish. Coat Hanger finish defaults to frame finish.

Plastic Arm finish matches frame finish (Very White arm has Grey arm pad).
Polished Aluminum arm has Ebony arm pad to match Ebony frame and Grey arm pad with Very White frame.
Sabrina Chair is Dual Upholstered with Sabrina Mesh available on the back and Teknion's Standard and Graded-In fabrics on seat.
Headrest and Coat Hanger Accessories must be installed on-site by customer to Fully Assembled (F) chairs.
Not Fully Assembled (N) option is only available when Accessories option No Headrest-No Coat Hanger (N) is specified.
Not all configurations are available as Xpress. Please see Xpress catalogue and/or specification software for details.
