COM/COL material requirement
The pattern, repeat and directionality of fabric may increase the amount of yardage required.
Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

work chairs
### t-3 adjustment features & instructions

#### seat height-adjustment

To raise the chair, lift the paddle up while lifting your weight from the seat until you reach the desired level and then release to lock in place. To lower the chair, lift the paddle up allowing your weight to push the seat down to the desired level and then release to lock in place.

#### back tilt adjustment

The tilt control paddle on the left locks the chair in four positions. To adjust the recline angle, push the paddle down to unlock it. Recline to the desired position and lift the paddle up to lock in place.

#### arm height-adjustment

To adjust the arm height, press the small button on the outside of either arm to raise or lower it to the desired position. Release the button to lock in place.

#### tension adjustment

Lean back to determine if the resistance is comfortable. If it is too stiff, turn the knob counterclockwise to decrease tension. If it does not provide enough resistance, turn the knob clockwise to increase tension.

#### back height-adjustment

The back height-adjustment is activated by the chair’s back. To adjust the lumbar height, lean forward and grasp both sides of the lower portion of the outside back. To raise, slide the back up. To lower, slide the back all the way to the top and then lower to desired height. Release to lock in place.

#### arm width adjustment

To adjust the arm width push the lever down and slide the arm to the desired position. Push the lever up to lock the arm in place.
t-3 adjustment features & instructions (continued)

stool height-adjustment

To raise the chair, lift the paddle up while lifting your weight from the seat until you reach the desired level and then release to lock in place. To lower the chair, lift the paddle up allowing your weight to push the seat down to the desired level and then release to lock in place.

stool footring height-adjustment

To raise or lower the stool’s foot ring, turn the foot ring’s knob counter clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.
NXXY t-3 – Task Chair

FEATURES
- Standard pneumatic cylinder provides height-adjustment of 4”
- Back-Tilt can be locked in five positions or left free flow
