**wood finish details**

The following provides details on Teknion's Flintwoods and Natural Veneers.

**flintwood & natural veneer**

Different wood species offer unique texture and grain. Due to the natural properties of wood, grain pattern and finish color variation can be expected. Teknion provides a coordinated color match between individual product lines.

The variation in technology between Teknion's wood manufacturing facilities and the veneers that are utilized will cause fluctuation in the fill rates and sheen levels. All Flintwood worksurfaces and storage tops are closed pore. All Flintwood used in a vertical application is open pore (Table base infill, Storage Units Case, Focus Board). Natural Veneer in all applications is open pore.

Exposure to direct sunlight should be avoided as UV rays may cause the veneer color to change. Adding new product to an existing installation might result in color variations due to light exposure and aging of the original product. For more information on Teknion wood and cleaning instructions please see Teknion's Fabrics and Finishes program.
The illustration below shows how Power/Data is incorporated into the Audience Boardroom Tables.

horizontal wire management

- **Media Shelf (ATSH)**
  - Supports A.V. equipment
  - Cannot be used with Circular (ATBC) or Square (ATBS) Boardroom Tables

- **Rail Mount Cable Manager (ATRC)**
  - Mounts to the inside of the horizontal support rails on Boardroom tables to route and manage power and data

- **Adjustable in Width**

- **Media Shelf (ATSH)**

- **Hammock Kit (ATHK)**
  - Provides casual storage space beneath the boardroom table surface for power and data cables and equipment

- **Middle Pedestal Bases**

- **Horizontal Support Rails**
