

sanna lightbar introduction

The Sanna Lighting Collection brings a modern and vogue lighting experience to personal and shared spaces. Rich materials and a vast finish offering allow Sanna Lightbar to be integrated into various spaces and applications while providing a unique experience through its shape and angles.

sanna (sah - nah)

An undefined word in the English Dictionary that uses soft vowels and warmth that expresses an invitation to each user, space and application to create their own light experience definition.

- Teknion Sanna by Pablo is a distinctly vibrant collection of LED task lighting that fashionably expands the language of light in today's work spaces
- Sanna was born in an organic collaboration between Teknion and California based lighting design studio Pablo Designs. Thriving in any environment and application, Sanna was created using advanced LED technologies and premium materials and finishes to elevate the user experience

- Sanna Lightbar, Freestanding with Platinum Finish
- Sanna Lightbar, Edge Clamp with Anthracite Finish
- Sanna Lightbar, Thru Mount with Crisp Grey Finish

sanna lightbar overview

Sanna Lightbar provides a truly unique lighting experience through its shape and angles that transforms it from a companion ambient light to a work focused task light. Lightbar can be playful and energizing, elevated and subtle, focused and accurate.

sanna lightbar basics

Lightbar has a 23" radius that is able to create a energized, focused or relaxed user lighting experience.

Sanna Lightbar (YLSR)

- The Sanna Lightbar was designed to be used in a task and/or ambient lighting application. It can be specified as freestanding, edge clamp or thru mount

Freestanding

- Freestanding bases are designed to be universal, it can be used in private offices, open plan areas and heads down spaces

Edge Clamp

- The edge clamp base was designed to be used in spaces where worksurface space is needed. It can be mounted to any 3/4" - 1 1/2" thick worksurface

Thru Mount

- The thru mount base was designed to be used in a fixed location on a worksurface to provide a clean aesthetic and allow for more space on the worksurface

planning with sanna lightbar

thru mount placement guide: single monitor

- Do not install the thru mount in the 26" working area of a desk to avoid interferences with motors or laptops
- Install the thru mount a minimum of 3" away from the worksurface edge
- Ensure the desired location has no brackets or structure underneath the worksurface

thru mount placement guide: double monitor

- If using two monitors, it is recommended to not install the thru mount in the 48" working area of a desk to avoid interferences with monitors or laptops
- The light can be mounted near the side of the desk as well

focus orientation (100%)

relax orientation (50%)

infinite dimming

The lighting experience depends on how the Lightbar is oriented and the level of dimming.

planning with sanna lightbar (continued)
