## MAST Marketplace Beam

### What's Included

MAST Marketplace Beam includes stanchions, height-adjustable rail, mounting, and horizontal wire management trough. Quantity of each item is dependent on length and height specified.

### Notes

Monitor support arms ordered separately (YMSTA).

Beam lengths are in increments of 5' and 6' segments with end and intermediate stanchions to support continuous spans.

Stanchions are always quad-channel.

Dual-height configurations use dual-height stanchions and two Beam rails per segment.

Each Beam rail includes a full length horizontal wire trough for wire management.

Works with MAST Arm (YMSTA).

Accepts all Teknion accessory mount items.

Marketplace tables greater than 18' must include an Intermediate Leg.

Cannot be used with any Marketplace Center Screens (UMSCG, UMSCS, UMSCT)

Vertical Wire Column – Single Sided (Y1) results in receiving the same quantity of Vertical Wire Columns as there are stanchions, Dual Sided (Y2) results in two Vertical Wire Columns per stanchion.

The height of the Vertical Wire Column will match the selected Beam Type height.

Maximum weight capacity of 90lbs per rail per side for Single-Height (1) and 60lbs per rail per side for Dual-Height (2).

Finished in Metallic Silver.
