## swerv xl dynamic monitor arm with crossbar overview

Swerv XL with crossbar is a scaled up, larger version of the standard Swerv monitor arm with an attached crossbar. Swerv XL provides the ability to support dual monitors using a single arm and crossbar.

### swerv xl dynamic monitor arm with crossbar

- 1 Mounting Option**  
Available with an XL Desk Edge Clamp. Swerv XL uses the XL Desk Edge Clamp. Unique to Swerv XL, both adjustment allen keys are conveniently stored under the top cover plate.

- 2 Reach Arm**  
Highlighted by its hollow body, the reach arm calls out to its sister product, Sanna Lightbar for its inspiration and unique ability to manage and guide wires.

- 3 Wire Management**  
Wires still exist and Swerv XL moves with them to be freely driven to new positions without interference.

- 3a** A removable cap unveils a pass through between the reach arm and the post. The initial connection between cables and arm is critical for establishing slack for turning and clean aesthetics.

- 4 Weight Balancing (20-35 lbs)**  
Swerv XL is highlighted with a patent pending weight balancing mechanism similar to the patented counterbalance table mechanism.

- 4a** Macro Adjuster. Used to balance the weight of the monitor.

- 5 Adjustment Arm**
- Conceals the Macro Adjuster behind the monitor
  - 11 1/2" up/down height-adjustment, 23" focal depth adjustment (total arm). Balances monitors between 20 and 35 lbs

  - Includes two crossbar mounted wire managers
