sit/stand applications

- Can be easily adjusted to fit the individual and support multiple works styles
- Enables working in both seated and standing postures, supporting neutral postures, movement and comfort preferences throughout the work day

Rectangular Height-Adjustable Worksurface for Navigate with Height-Adjustable Freestanding Table Base Only shown

sit/sit and sit/stand ranges: where do they come from?
1. Sources: BIFMA G1-2013 Ergonomics Guidelines
2. Americans with Disabilities Acts
   Sit / Sit = 22” - 34”
   Sit / Stand = 22” - 48”

(A) 5th percentile female seated elbow height (22”)
(B) 95th percentile male seated elbow height (29”)
(C) 95th percentile male seated elbow height in a wheel chair (34”)
(D) 95th percentile male standing elbow height (48”)

The values shown are provided with tolerances (+/-1”) as these dimensions change over time. Our goal is to accommodate as many users as possible.
The following chart outlines the weight capacity, adjustment range and power consumption for each height-adjustable table mechanism.

* Minus the weight of worksurface
** Weight Capacity already includes the weight of the worksurface. Can be increased to 300 lbs via customer request (CR) process.
Note: Average time of a sit to stand adjustment is less than 10 seconds.
All electric table travel speeds are rated to 1.5/sec unless otherwise noted.
Complements offers three height-adjustable table collections, Navigate, Complements and hiSpace, each with their own unique features.

Navigate Height-Adjustable Tables provide the following features:
- Refined aesthetic with no visible fasteners
- Up to five switch options including a Display Toggle Switch with multiple finish choices
- Collision detection is included with every Navigate Height-Adjustable Electric Table or Electric Base every hiSpace electric mechanism.

**navigate height-adjustable tables**

- Option of five types of base mechanisms including: electric and counterbalance
- One worksurface style:
  - Rectangular
- Worksurface finishes available:
  - Source Laminate, Foundation Laminate, Seamless, Flintwood and Natural Veneer
- Power & undersurface cable management options available

**navigate height-adjustable extended corner and navigate height-adjustable gable leg complete tables**

- Option of two types of base mechanisms including: standard electric and extended electric
- Two worksurface styles:
  - Extended corner and rectangular
- Worksurface finishes available:
  - Foundation Laminate, Seamless (Extended Corner Table), Flintwood and Natural Veneer
- Power & undersurface cable management options available on the Navigate Height-Adjustable Gable Leg Complete Tables

**navigate 120 height-adjustable freestanding tables**

- Option of two types of base mechanisms including: standard electric and extended electric
- One worksurface style available:
  - 120 degree
- Worksurface finishes available:
  - Source Laminate, Foundation Laminate, Seamless, Flintwood and Natural Veneer
- Power & undersurface cable management options available

**navigate height-adjustable meeting tables**

- Option of two base mechanisms: fixed height or standard electric
- Three worksurface styles:
  - Boat, Rectangular and Oval
- Worksurface finishes available:
  - Foundation Laminate, Seamless, Flintwood and Natural Veneer
- Optional casters available
understanding
height-adjustable tables
(continued)

complements height-adjustable tables
- Option of five base mechanisms: Counterbalance, Increment, Top Crank, Standard Electric and Extended Electric
- Four worksurface styles:
  • Rectangular, Corner, Corner with Split Surfaces or Rectangular with Split Surface
- Worksurf ace finish available:
  • Foundation Laminate
- Optional casters available

hiSpace quick connect height-adjustable tables
- hiSpace Quick Connect Height-Adjustable tables are ordered with a worksurface that easily connects to the base on-site
- Option of one base mechanism:
  • Extended Range Electric
- Two worksurface styles:
  • Rectangular
  • Rectangular with Radius Corners
- Worksurf ace finishes available:
  • Source Laminate
  • Foundation Laminate
  • Seamless
- Cable Management option included
- Pre-assembled components

hiSpace basic height-adjustable tables
- hiSpace Basic Height-Adjustable Tables are ordered as complete tables or base only and require assembly on-site
- Option of one base mechanism:
  • Extended Range Electric
- Two complete tables including base with worksurface:
  • Extended Range Electric Base with Rectangular worksurface
  • Extended Range Electric Base with Rectangular worksurface with Radius Corners
- Worksurf ace finishes available:
  • Foundation Laminate
  • Seamless
- Cable Management option included
- Requires assembly
