

**Storage Power Harness**

The Storage Power Harness carries power along the base of the cabinet to the Flush Mount Power & Data box or the Cubby Power Monument (EWQPM) in the storage unit.

**WHAT'S INCLUDED**

1 power harness.

**NOTES**

The 24" length is all mesh. Other lengths have mesh on both ends for maximum flexibility in a storage application.

To specify the correct length of power harness, determine the distance from the center of one cut out to the other, then add 24".

In order to plug into a Cubby Power Monument (EWQPM), a Four-Way Splitter (EWDB) or an I-Connector (EWIC) must be specified separately.
