

The Chicago Flush-Mounted Power and data is a module mounted to the back of a case where a drawer is located. This allows for accessibility of power and data from the back side of a storage unit.

**WHAT'S INCLUDED**

**Base Height:** 1 power box, faceplate, back cover, mounting hardware.

**Beltline Height:** 1 power box, faceplate, back cover, mounting hardware, four-way splitter, 1 power harness (to cover vertical distance to base), 1 receptacle outlet.

**NOTES**

Data and communications must be sourced separately.

Chicago electrics wiring restrictions require that all wiring and connections be supplied and connected by a licensed electrician.
