# understanding bridge returns

Bridge returns connect Desks and Credenzas. They are available in Flush and Overlap Credenza and Overlap Credenza End configurations, and with or without full or partial modesty panels.
Flush Mounting, where the bridge mounts between a desk and a credenza.

Without
back panel

With
back panel

Overlap Credenza End, where the bridge mounts to a desk and overlaps a credenza.

With
back panel

Overlap Credenza Mounting, where the bridge mounts to a desk and overlaps a credenza.

Without
back panel

With partial
back and
continuous
credenza

With partial
back panel
meeting up to a
credenza gable

The back panel ends at the credenza
so that the bridge return can overlap a
continuous credenza.

The back panel ends at the credenza so
that the bridge return and credenza gables
are flush.

bridge returns basics

Dossier Bridge Returns connect desks and credenza configurations. They can be used with Desks and Table Desks.

**Bridge Return for Standard Desk
and Overlap Credenza Connection
(shown)**

Bridge Returns are available in two styles:
• Wood option for use with Desks
• Wood with metal trim option for use with Table
  Desks

Two connection options are available:
• Flush for connecting the desk to the credenza
• Overlap for connecting to the desk and
  overlapping a high or low credenza

Available with and without Full Back Panels
(depending on application).

Mounts onto 20" and 24" deep credenza tops
Depths: 20" and 24"

Widths
• 42" to 54" widths in 6" increments for flush
  applications
• 60" to 78" widths in 6" increments for overlap
  mounting

Heights: 29"

Grommet Options: Centered only

Leveling range: 1"

**Bridge Return for Standard Desk with Flush
and Overlap Credenza Connection (ZJBN)**

• Used in two applications:
  - Connecting a Desk to a credenza
    configuration in a flush application
  - Connecting a Desk to a credenza
    configuration where the return overlaps

• Available with a spacer for use with low
  credenzas

**Bridge Return for Standard Desk with
Full Back Panel and Flush Credenza
Connection (ZJBF)**

• Used in two applications:
  - Connects a Desk to a credenza
    configuration in a flush application where
    a back panel is required

• Available with a spacer when a low credenza
  is specified

**Bridge Return for Standard Desk with Full Back Panel
and Overlap Low Credenza Connection (ZJBJ)**

• Connects a Desk to a Low Credenza configuration
  in an overlapping application where the back panel
  is shorter so that it meets up with the gable of the
  credenza

• Available with a spacer for use with low credenzas

planning with bridge returns

**The following should be considered when planning with Dossier Bridge Returns.**

flush bridge returns

Bridge Return for Standard Desk with Full Panel.

1-1/2" thick wood top with straight edges

1" thick full back panel

overlap bridge returns

Overlapping bridge returns are offset from the back of the credenza to allow for grommet and data/electrical modules.
2-1/2" or 6"

actual bridge depth

Standard with 2-1/2" offset

Rectangular Grommet with 6" offset

Round Grommet with 6" offset

Data/Electrical Module with 6" offset

# planning with bridge return grommets

Grommets are available on bridge returns. The following outline the location options.

## bridge return, metal

Grommets are available centered only.

rectangular grommet

round grommet

bridge return, wood

Grommets are available centered only.
