## planning with hutch storage

**The following should be considered when planning with Hutch Storage.**

Hutches feature integrated end panels that allow them to sit on a Credenza, Standard Desk or L Return, when planned against a wall.

Hutches do **not** have finished backs.

Hutches should run the full length of the credenza unit that they are sitting on to provide proper load distribution.

Hutches **cannot** be used on table desks, bridges or run-offs.

Hutches can be specified with an optional cubby shelf, similar to the cubby shelf on wall mounted storage.

Hutches can be specified with an optional tackboard.

# wall panel basics

Dossier Wall Panels mount to the wall above a credenza to provide a solid wall mounted surface.

## configurations:

Finishes:

- fabric
- veneer
- back painted glass
- magnetic veneer

Heights:

- Full datum heights, extending between a credenza top to the full height of 70" or 84"

- Partial height, extending between a credenza top to the bottom of overhead storage

Configurations:

- Segmented: with a channel to accommodate a glass or solid surface shelf, each section can be a different finish, but the bottom section is always wood
- Full: with no segmentation
