planning with hutch storage

The following should be considered when planning with Hutch Storage.

Hutches feature integrated end panels that allow them to sit on a Credenza, Standard Desk or L Return, when planned against a wall.
 Hutches do **not** have finished backs.

Hutches should run the full length of the credenza unit that they are sitting on to provide proper load distribution.

Hutches **cannot** be used on table desks, bridges or run-offs.

Hutches can be specified with an optional cubby shelf, similar to the cubby shelf on wall mounted storage.

Hutches can be specified with an optional tackboard.
