JNECPB

Chicago Power Box

This Chicago Power Box is a module that mounts inside a Chicago beam to provide power outlets that are facing sides or facing down.

WHAT'S INCLUDED

1 Chicago power box with power outlets and mounting hardware.

WHAT'S EXCLUDED

Electrical wires (field supplied by electrician), Cable Tray and Cable Tray for Access Door.

NOTES

The Chicago Power Box mounts inside a Chicago Structural Beam (JNDCB), Chicago EZ Fence Beam (JZSCB) or Chicago EZ Fence Beam for Corridor (JZSCS).

When Facing Down Mounting Style (D) is specified, the Double-Sided Configuration (D) is not available.

The connections must be executed by a qualified electrician.

Receptacle outlet matches with shroud finish.

Refer to application guide.

Facing Sides (B)

Facing Down (B)
