Counterweight must be specified for all stationary pedestals **not** under a worksurface.

Included hanging file bars are to be installed along the width only.

Drawer datum line will **not** match with any laminate storage when positioned side-by-side.

When Metal Storage are positioned side-by-side, ensure product is leveled. If front/door alignment is needed, it can be done by either releasing the front mounting screws, adjusting the front/door and tightening the screws, or by using hinge adjustments to ensure an equal gap
