

# hiSpace casual space division

hiSpace Desk Edge Screen - Glass mounts directly to the worksurface to create privacy and physical separation at any height on a hiSpace Height-Adjustable Bench Worksurface.

**HHBCDG**

## hiSpace Desk Edge Screen - Glass

### WHAT'S INCLUDED

1 glass screen and attachment hardware.

### NOTES

All hiSpace Desk Edge Screens - Glass mount flush to the rear edge of the worksurface. Desk edge accessories can not be used along the rear edge of the worksurface. Wire management on the surface should be managed with the use of grommets.

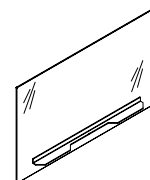

Actual width is calculated as the stated nominal width minus 16".

13" height does not provide a full visual privacy barrier through the entire range of height-adjustment.

22" height provides a full visual privacy barrier through the entire range of height-adjustment.

Glass is 6mm thick.

Should be specified with a hiSpace Rectangular Worksurface (HHBWRL) with 5" Gap.
