

The Functional Lateral Screen Frame is the main raw structure that mounts perpendicular from the spine screen frame to create privacy and functionality between side-by-side users.

## WHAT'S INCLUDED

2 (depth only) or 4 (depth and return) vertical posts, horizontal rail and end trim with mounting bracket.

## NOTES

Top Trims and Fascias must be specified separately.

The Depth and Return Option can only be used with the Return Frame for Two Worksurfaces (MWWSRD).

When Depth and Return Option is specified, please note that 4 separate fascias must be used to cover it.

For Application Depth and Return (R), Bracket Condition Shared (S) must be selected.

Total length of Lateral Screen Frame **cannot** exceed 244cm.
