Interpret Lite Power Management Channel

The Cable Tray provides discrete wire management with a capability for face mount power box to be mounted.

WHAT'S INCLUDED

1 cable tray and hardware (single-sided), 2 cable trays and hardware (double-sided)

NOTES

Mounts to the cross beam below the frame to accept international electrics. Tray is complete with holes which will allow for the mounting of International power Bars.

Available in widths from 120cm - 180cm to align with worksurface widths, however sizes are nominal, the actual widths are 95cm shorter than the nominal width.

Both electrical cables and data cables mount outside of the power tray, they are not shielded as per International electrical standards.
