

M W W S C T Height-Adjustable Cantilever

The Height-Adjustable Cantilever supports the worksurface when height adjustment pucks have been installed.

WHAT'S INCLUDED

2 cantilevers with mounting hardware.

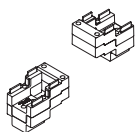

NOTES

Each worksurface requires 2 Height-Adjustable Cantilevers (MWW SCT), 1 Bolt Kit (at appropriate height) (MWW SBK) and 2, 4 or 6 Height Adjustable Pucks (MWW SPK) depending on whether 2.5cm, 5cm or 7.5cm of incremental height adjustment is required.

Works with Power Cut-Out Worksurface (MWERU) or Wire Gap Worksurface (MURROW).

Cannot work with a Sliding Worksurface (MWERUS).

M W W S P K Height-Adjustable Pucks

Bolts secure the Height-Adjustable Pucks to the frame structure for individual worksurface height adjustment.

WHAT'S INCLUDED

2, 4 or 6 pucks depending on height selected.

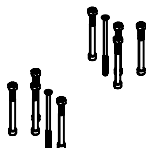

NOTES

Each worksurface requires 2 Height-Adjustable Cantilevers (MWW SCT), 1 Bolt Kit (at appropriate height) (MWW SBK) and 2, 4 or 6 Height Adjustable Pucks (MWW SPK) depending on whether 2.5cm, 5cm or 7.5cm of incremental height adjustment is required.

Works with Power Cut-Out Worksurface (MWERU) or Wire Gap Worksurface (MURROW).

Cannot work with a Sliding Worksurface (MWERUS).

M W W S B K Bolt Kits

Height-Adjustable Pucks are mounted to the frame structure to increase the height of the worksurface for individual customized height.

WHAT'S INCLUDED

each bolt kit includes 8 bolts and 2 screws for specified height increment.

NOTES

Each worksurface requires 2 Height-Adjustable Cantilevers (MWW SCT), 1 Bolt Kit (at appropriate height) (MWW SBK) and 2, 4 or 6 Height Adjustable Pucks (MWW SPK) depending on whether 2.5cm, 5cm or 7.5cm of incremental height adjustment is required.

Works with Power Cut-Out Worksurface (MWERU) or Wire Gap Worksurface (MURROW).

Cannot work with a Sliding Worksurface (MWERUS).
