

## WWCBSD

### Solid End Gable Overlay – Double-Sided Bench

End Gable Overlay Screens – Double-Sided mounts directly to the bench frame structure to create a physical separation between the bench and the corridor in a double-sided bench application.

#### WHAT'S INCLUDED

1 solid screen, 4 brackets (2 for a 36" depth option), accessory rail (if specified), hardware and bumpers.

#### NOTES

When 6" Overhang is desired, user must specify depth of screen that is 12" longer than the depth of their bench (eg. 72" screen on a 60" depth bench). The 6" overhang option only indicated desired location of brackets and not length of screen.

Please note that 6" Overhang screens are not interchangeable with "Flush to the Edge" screens. In other words, a 72" "with 6" Overhang" screen can only be used on a 60" depth bench and not used flush on a 72" bench.
