

## WWEPD

### Power Management Channel

The Power Management Channel mounts to the center of the frame to allow access to the receptacles and for managing both power and data cables.

#### WHAT'S INCLUDED

Power Management Channel.

#### NOTES

Complete with two cut outs to align with the receptacle locations and two cut outs on the face for data ports.

Available in widths from 48"-96" to align with worksurface widths, however sizes are nominal.

The power management channel can accommodate a single sided, doubled sided and 120° planning. Note 60" width is the maximum width when planning with 120°.

Both electrical cables and data cables mount to the Power Tray, tray design separates and shields the Harnesses and Power Module from data cables as per North American Electrical Standards.
