

The Power Module mounts below the worksurface and accepts receptacle outlets for the generation of hard-wired electrics.

**WHAT'S INCLUDED**

1 power module and mounting brackets.

**NOTES**

The Double-Sided Frame mounting application clamps around the center accessory beam to allow access from both sides. The Single-Sided Frame Mounting application mounts to the modesty panel.

Only one Power Module is required for each frame section.

Available in 8-Wire Isolated Ground (8T) and 8-Wire Dual Ground (8K) wiring systems.

Standard and PVC Free options are available.
