## K P P

### Panel-To-Panel Adapter

Same Height

15" Height Difference

The Panel-to-Panel Adapter provides the ability to create an off-module 90° connection.

#### WHAT'S INCLUDED

1 Panel-to-Panel Adapter, Posi-Locks and spring plate assemblies, off-module change-of-height trim for 15" panel-to-panel height difference option.

#### NOTES

The Panel-Panel Adapter allows a Leverage conventional or universal Panel to be attached off-module to another similar panel at a 90° angle.

Additional widths do **not** have to be taken into consideration for planning with the Panel-to-Panel Adapter. However, the top trim that attaches to the off-module panel must be trimmed in the case of a change of height connection by 0.75" at the off-module panel connection end.

Power **cannot** pass through the Panel-to-Panel Adapter into the attached panel.

**Not** all combinations are available, Please see pricing for details.

**Xpress** Available through *Teknion's Xpress Program*.
