

aarea worklounge overview

Tailoring meets engineering, innovated through second-life materials. Aarea’s mélange knit back is fabricated from retrieved marine plastic to minimize virgin materials and waste. The knit back is flexible and readily conforms to the shape of the body, creating seamless support through the tensions inherent in the knit.

The Worklounge offers high performance without bulky, visibly mechanical components, essentially a lounge chair that acts like a task chair. The synchro-tilt mechanism allows the seat back and cushion to recline at different rates, keeping your feet on the floor – a feature previously unique to task chairs.

aarea worklounge adjustment features & instructions

seat height-adjustment

Seat height can be adjusted by lifting the lever underneath the seat on the left side. When the lever is lifted up, the weight of the body will cause the seat to lower. Releasing the lever stops the seat at the desired height. Lifting the lever up with no weight on the seat allows it to rise.

back tilt lock adjustment

Three lockable tilt positions are available on the Aarea Worklounge. For free-flow mode, push down lever located on left hand side to unlock. For tilt-lock mode, ensure chair is unlocked. Lean back to desired angle and then lift up lever to lock. To return chair to an upright position, push down lever to unlock. Lean on the backrest and lift weight of body off backrest to reset.

aarea casual lounge overview

Tailoring meets engineering, innovated through second-life materials. Aarea’s mélangé knit back is fabricated from retrieved marine plastic to minimize virgin materials and waste. The knit back is flexible and readily conforms to the shape of the body, creating seamless support through the tensions inherent in the knit.

The Casual Lounge chair fits in any open setting, for a supportive, cushioned sit with height adjustability and four-star, wood and metal leg options.
