around synchro-tilt task chair & stool overview

Around is an exclusive line of upholstered and coordinating mesh-back task chairs and swivel stools. Hidden innovations optimize function and comfort.

- Around Task Chairs and Swivel Stools with Upholstered and Mesh Backs have been designed and tested for users up to 300 lbs and meet ANSI/BIFMA requirements
- Warranted for 24/7 application (see www.teknion.com for details)
- Around Task Chairs and Swivel Stools are equipped with casters intended for use on carpeted surfaces. Use of these casters on hard surfaces could result in unexpected rolling and tipping. Casters designed for use on hard surfaces are available. If in doubt, see your dealer for appropriate selection
- Weight-Balanced Synchro-Tilt mechanism with 3.88:1 back to seat tilt ratio

Mesh Back

Around Mesh back model wraps a similar color on the front to back and the cushioned mesh is a direct match to (5x) Teknion’s Fundamentals upholstery colors. The back is encased by a sculpted frame.

Arms are simply controlled above the seat. Options for 2D Arms (height and width) and 4D Arms (height, width, depth and pivot)

Optional Seat Slider provides 3-7/8” of seat depth adjustment (not shown)

Integrated FlexAround Seat Pan offers an advanced degree of comfort, support and ventilation

Weight-balancing synchro-tilt mechanism: automatically adjusts back tension to suit each individual easy override dial to fine-tune tilt tension

The back tilt can be locked in the upright position or left to free flow to four defined angle ranges. This encourages good posture and promotes movement.

Many LUUM upholstery options available on all Around seats

The Lumbar element is optional on the Mesh back and provides 4” of lumbar height adjustment.

Task Chairs are available Fully Assembled or Not Fully Assembled, featuring a unique back and arm Quick-Snap Assembly. Swivel Stools are Not Fully Assembled.

Standard pneumatic seat height adjustment of 4” (8” on stool)

Swivel Stool has an all-aluminum foot ring with 4” height adjustment (Not shown)

Five Star Base with optional hard or soft casters in Ebony or Silver and Ebony finish, or Hard and Soft Glides.

Around Finish Guide

Around Frame Finish palettes are designed and packaged to provide a curated, cohesive frame in light or dark finishes that work with both neutral or contrasting fabrics. The Ebony Frame Finish package includes Ebony plastic frame, mechanism and 5-star base. The Gris Frame Finish package includes Gris plastic frame and mechanism with Cool Grey plastic details and a polished aluminum 5-star base.

Statement of Line

seating price & user guide – January 27, 2020
Upholstered Back

The unique flexing plastic Around Hex Suspension System combines comfort, support, flexibility and a characteristic look. Behind it is an upholstered panel.

Asymmetrical lumbar adjustment is cleverly integrated in the design of the upholstered chair and is a standard feature.

Many LUUM upholstery options available on all Around seats

Task Chairs are available Fully Assembled or Not Fully Assembled, featuring a unique back and arm Quick-Snap Assembly. Swivel Stools are Not Fully Assembled.

Cushioned Upholstered back model wraps selected LUUM Upholstery from front to back and is encased by a sculpted frame.

Arms are simply controlled above the seat. Options for 2D Arms (height and width) and 4D Arms (height, width, depth and pivot)

Optional Seat Slider provides 3-7/8” of seat depth adjustment (not shown)

Integrated FlexAround Seat Pan offers an advanced degree of comfort, support and ventilation in a slim profile.

Weight-balancing synchro-tilt mechanism: automatically adjusts back tension to suit each individual easy override dial to fine-tune tilt tension. The back tilt can be locked in the upright position or left to free flow to four defined angle ranges. This encourages good posture and promotes movement.

Standard pneumatic seat height adjustment of 4” (8” on stool)

Swivel Stool has an all-aluminum footring with 4” Height Adjustment (Not shown)

Five Star Base with optional hard or soft casters in Ebony or Silver and Ebony finish, or Hard and Soft Glides.

Around Finish Guide

Around Frame Finish palettes are designed and packaged to provide a curated, cohesive frame in light or dark finishes that work with both neutral or contrasting fabrics. The Ebony Frame Finish package includes Ebony plastic frame, mechanism and 5-star base. The Gris Frame Finish package includes Gris plastic frame and mechanism with Cool Grey plastic details and a polished aluminum 5-star base.

Note: When Fine Grain or Leather LA is specified on the back of the chair in Single or Dual Upholstery Style, the upholstery panel behind the Hex Suspension System defaults to Percept-Essence to coordinate with Ebony Frame Finish and Percept-Pristine upholstery to coordinate with Gris Frame Finish. Remaining upholstery patterns are fully upholstered on the back of the chair (wrapped from front to back and applied behind the Hex Suspension System on the backside).

around synchro-tilt task chair & stool adjustment features & instructions

**RECLINING TENSION OVERRIDE**

While the weight-balancing mechanism automatically adjusts the tilt-tension to each user, an override grip is located below the seat on the right hand side to enable modification to suit user preference. To fine tune the tilt tension, simply rotate the grip forward to tighten and backwards to loosen.

**TILT-LOCK AND LIMITER**

Turning the grip found under the left side of the seat backwards limits the back tilt travel and locks the back when it’s rotated fully forward. Travel is limited on 4 positions with back lock in the upright position.

**ARM WIDTH, DEPTH AND PIVOT ADJUSTMENT**

To adjust the width of the 2D and 4D arms, grab the arm pad on both sides and push to the left or to the right to the desired position. For the 4D arm option, simultaneously pivot the arm pad inward or outward to the desired angle. Arm pad depth can be controlled by grabbing the pad and sliding it forward or backward.

**ARM HEIGHT ADJUSTMENT**

To adjust the height adjustable arm height, press the button below either arm rest to raise or lower it to the desired position.

**SEAT HEIGHT ADJUSTMENT**

Seat height can be adjusted by pulling up on the lever below the seat on the right hand side. When this lever is pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling up on the lever with no weight on the seat allows it to rise.
around synchro-tilt task chair & stool adjustment features & instructions (continued)

**LUMBAR SUPPORT HEIGHT ADJUSTMENT (UPHOLSTERED)**

While sitting in the chair, put arms behind back to grab each individual lumbar control knob, slide each element up or down to match your physical requirements, even for asymmetrical positioning.

**LUMBAR SUPPORT HEIGHT ADJUSTMENT (MESH)**

While sitting in the chair, put arms behind back to grab the lumbar control knobs on both sides of lumbar element, slide lumbar up or down to match your physical requirements.

**SEAT DEPTH ADJUSTMENT**

To adjust the seat depth, pull outward on the lever below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward. Seat depth reduction is assisted by a spring-loaded motion. For either direction, release button to lock the seat in place.

**FOOTRING ADJUSTMENT (STOOL)**

To raise or lower the stool’s foot ring, turn the foot ring’s knob counter-clockwise to release the foot ring and adjust the ring until you reach desired level. Turn the knob clockwise to lock in place.
**N A R M**  
**Around Synchro-Tilt – Task Chair, Mesh Back, Assembled**

**FEATURES**
- Standard pneumatic cylinder provides height-adjustment of 4”
- Weight-balanced Synchro-Tilt mechanism that allows tilt-tension override with one simple rotation of control. Back recline up to 23°
- Back tilt can be locked in the upright position or left to free flow to 4 defined angle ranges
- Unique, cushioned mesh wrapped-back provides comfort and tactile experience. Available in 5 optional colorways that are coordinates with key Luum Fundamentals upholstery colors
- Curated finishes in Ebony Plastic Frame with Ebony plastic 5-Star Base or Gris Plastic Frame with Cool Grey plastic details and Polished Aluminum 5-star base
- Integrated FlexAround Seat Pan offers an advanced degree of comfort in a slim, sleek profile.
- Optional Seat Depth Adjustment of 3-7/8”
- Optional 4” height-adjustable Lumbar Element
- Optional plastic arms with 2D (height and width) or 4D (height, width, depth and pivot) adjustments that are easy to access
- Options for Hard and Soft Casters finished in Ebony or Silver and Ebony finish, or Hard and Soft Glides
- Hard Casters are standard and well suited for soft flooring such as carpeting
- Soft Casters are available for use on hard flooring, such as wood, concrete or tile

**NOTES**  
Around Chair with Mesh is offered with Around Mesh on the back and Teknion’s Luum standard upholstery available on the seat.  
Arm finish and mechanism finish defaults to Frame Finish. Gris plastic Frame Finish option includes Cool Grey plastic finish details on tactile interfaces such as arm pads, lumbar adjustment knob and other adjustment controls. Ebony is base price finish.  
Model ships fully assembled. Specify separate model NARN if Not Fully Assembled model is required.

**Around Synchro-Tilt – Task Chair, Upholstered Back, Fully Assembled**

**FEATURES**
- Standard pneumatic cylinder provides height-adjustment of 4”
- Weight-balanced Synchro-Tilt mechanism that allows tilt-tension override with one simple rotation of control. Back recline up to 23°
- Back tilt can be locked in the upright position or left to free flow to 4 defined angle ranges
- Cushioned, wrapped-upholstered back provides comfort and tactile experience. Unique flexing, Around Hex Suspension System combines comfort, support, flexibility and the characteristic look
- Curated finishes in Ebony Plastic Frame with Ebony plastic 5-Star Base or Gris Plastic Frame with Cool Grey plastic details and Polished Aluminum 5-Star base
- Includes standard innovative Lumbar Elements with 4” of height-adjustment, including asymmetrical positioning.
- Integrated FlexAround Seat Pan offers an advanced degree of comfort in a slim, sleek profile.
- Optional Seat Depth Adjustment of 3-7/8”
- Optional plastic arms with 2D (height and width) or 4D (height, width, depth and pivot) adjustments that are easy to access
- Options for Hard and Soft Casters finished in Ebony or Silver and Ebony finish, or Hard and Soft Glides
- Hard Casters are standard and well suited for soft flooring such as carpeting
- Soft Casters are available for use on hard flooring, such as wood, concrete or tile

**NOTES**
Around Chair with Upholstery is offered with selected Teknion LUUM upholstery on the back and Standard LUUM upholstery available on the seat. When Fine Grain or Leather LA is specified on the back in Single or Dual Upholstery Style, the upholstery panel behind the plastic Hex Suspension System defaults to Percept-Essence to coordinate with Ebony Frame Finish and Percept-Pristine upholstery to coordinate with Gris Frame Finish.

Single Upholstered: The same fabric colorway is applied to the seat and wrapped back.
Dual Upholstered: Two different fabrics or colorways are applied to the chair, one fabric to the wrapped back and one to the seat. First fabric listed will apply to the back and is the grade of fabric used to price the chair. A dual upholstery upcharge applies.

Arm finish and mechanism finish defaults to Frame Finish. Gris plastic Frame Finish option includes Cool Grey plastic finish details on tactile interfaces such as arm pads, lumbar adjustment knob and other adjustment controls. Ebony is base finish price.

Model ships fully assembled. Specify separate model NARU if Not Fully Assembled model is required.

- Soft Casters are available for use on hard flooring, such as wood, concrete or tile

NOTES

Around Chair with Upholstery is offered with selected Teknion LUUM upholstery on the back and LUUM Standard upholstery available on the seat. See NART for more fabric and finish details.

Single Upholstered: The same fabric colorway is applied to the seat and back.

Dual Upholstered: Two different fabrics or colorways are applied to the chair, one fabric to the wrapped back and one to the seat. First fabric listed will apply to the back and is the grade of fabric used to price the chair. A dual upholstery upcharge applies.

Arm finish and mechanism finish defaults to Frame Finish. Gris plastic Frame Finish option includes Cool Grey plastic finish details on tactile interfaces such as arm pads, lumbar adjustment knob and other adjustment controls. Ebony is base finish price.

Ships compact and customer is responsible for assembly.
