

essa chair overview

Essa is designed for Teknion by Pearson Lloyd and takes its name from the work essence.

It has a pared down scale and a pure sculptural shape that takes cues from a classic club chair.

It is a less technical task chair that combines elegance with ergonomics, providing just the right amount of support through curves and contours rather than multiple adjustment mechanisms.

It is available with a plastic or upholstery back.

essa chair dimensions & material requirements

features

- Designed and tested for users up to 300 lbs
- Meets ANSI/BIFMA requirements
- Equipped with hard casters intended for use on carpet
- Soft casters are available for hard surfaces
- Weight Balanced Synchro-Tilt

weight

Essa Chair - Upholstered Seat with Plastic Back	39 lbs
Essa Chair - Upholstered Back	39 lbs

Multi-Use Chair

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

	SINGLE UPHOLSTERED		DUAL UPHOLSTERED - SEAT		DUAL UPHOLSTERED - BACK

planning with essa chair

The following can be considered when planning with the Essa chair.

workstations

The Essa chair with height-adjustable arms is suitable for use in any workstation settings.

enclaves

The Essa chair with no arms is ideal in enclaves and touchdown stations where the end user needs a space to get some quick work completed.

meeting and conference rooms

Essa's contemporary look with curves and comfort is suitable for short-term use in meeting and conference rooms. Fixed arms look consistent and professional.

essa adjustment features & instructions

seat height adjustment

To raise the chair, pull the lever outwards while lifting your weight from the seat until you reach the desired level, then release to lock in place. To lower the chair, pull the lever outwards and allow your weight to push the seat down until you reach the desired level, then release to lock in place.

back tilt adjustment

To adjust the angle of recline, move the lever forward to unlock the back and leave the chair in free flow mode. Recline to the desired position and move the lever rearward to lock the back in place.

arm height adjustment

To adjust the arm height, press the button in the upper part of the armrest to raise or lower it to the desired position. Release the button to lock in place.
