

projek overview

Projek is smart, simple seating designed for today’s workplace where shared workspaces are increasingly common. Projek has a clean and unassuming look that allows for visual fit in varied office settings. It offers a fresh take on finishes and aesthetics, with the ability to mix and match finishes for each part of the chair. Projek is available in a task chair and a swivel stool.

Projek – Synchro-Tilt Task Chair (NPRT) (shown)

statement of line

projek dimensions & material requirements

features

- Designed and tested for users up to 300 lbs
- Meets ANSI/BIFMA Requirement

weight

General Use/Executive Task	35 lbs
Swivel Stool	41.8 lbs

Task Chair

COM/COL material requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required.

Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.

	DUAL UPHOLSTERED	
	COM [yards]	COL [sq. ft]
Seat	0.875	8.75
Headrest	0.5	4.875

projek adjustment features & instruction

seat height-adjustment

Seat height can be adjusted by pulling outward on the button below the seat on the right hand side. When this button pulled, the weight of the body will cause the seat to lower, and releasing it stops the seat at the desired height. Pulling outward on the button with no weight on the seat allows it to rise.

seat depth adjustment

To adjust the seat depth, pull outward on the button below the seat on the left-hand side and simultaneously lift your weight from the seat while sliding the seat forward or backward. Release button to lock the seat in place.

4D arm pivot adjustment

To pivot the arm cap, depress the auto safety lock button on the outside of the armrest and pivot 210° degrees to desired position. Release the button to lock in place. 180° arm rotation adjusts the arm depth.

arm height-adjustment

To adjust the arm height, press the button below either arm rest to raise or lower it to the desired position. Release the button to lock in place.

back tilt adjustment

Turning the grip found under the left side of the seat limits the back tilt travel and locks the back. Travel is limited on 3 positions with back lock in the upright position.

tilt tension adjustment

Fine tune the weight balanced tension by rotating the dial located below the seat center to suit personal preference.

projek adjustment features & instruction (continued)

lumbar height-adjustment

The lumbar height-adjustment knobs can be found on the back where the Inner Frame connects to the Lumbar Element.

The height of the lumbar support can be adjusted by sliding them up and down.

arm width adjustment

To adjust the width of each arm, turn the dial clockwise to release the arm lock. Slide the arm inward or outward to the desired position. Tighten the knob to lock the arm in place.

stool foot ring height

To raise or lower the stool's foot ring, turn the foot ring's knob counter clockwise to release the foot ring and adjust the ring until you reach the desired level. Turn the knob clockwise to lock in place.

work chairs

Xpress

N P R T

Projek – Synchro-Tilt Task Chair

FEATURES

- Standard pneumatic cylinder provides height-adjustment of 4"
- Seat depth adjustment of 3" and Lumbar height-adjustment of 4"
- Back tilt can be locked in the upright position or left to free flow to 3 defined angle ranges
- Weight-balancing with a travel limiter synchro-tilt mechanism (3.5:1 tilt ratio) with unique preference control to tilt tension. Back recline angle range is 0° - 20° and seat adjustment range angle is 0° - 6.5°
- Ebony base is available in plastic only
- Hard casters are standard and are well suited for soft flooring such as carpeting
- Soft casters are available for use on hard flooring, such as wood, concrete or tile
- Headrest option is only available on Fully Assembled style

NOTES

Headrest's frame and fabric finishes default to Outer Frame Finish and Seat fabric finish.

2D and 4D Arm finish defaults to the Outer Frame Finish. For Very White the arm rest will be finished same as outer frame. Arm Rest Pad and Arm Support finished in Ebony. Fixed Arm is available in Ebony only.

Projek Chair is Dual Upholstery with Shrinx Mesh available on the back only and Teknion's Standard and Graded-In-Fabrics on seat. See Projek Finish Guide to define Plastic Outer Frame, Plastic Inner Frame and Lumbar Element finish details.

Not all configurations are available in the Xpress program.

Assembly Required (K) is further knocked-down and customer is responsible for assembly.

Xpress Available through *Teknion's Xpress Program*.
