CTST

Intermediate Leg

Intermediate Legs are used to join adjacent worksurfaces and also provides additional knee clearance below the worksurface.

WHAT'S INCLUDED

1 Intermediate Leg, levelers and mounting hardware.

NOTES

Standard (D) Leg style is only available in Fixed Height.

Intermediate Legs may not be used in freestanding applications or to create rows of linked worksurfaces.

Vertical Wire Management Covers are available for the Slender (S) and Arched (A) Leg styles. See the Accessories section.

Fixed height is 29". Adjustable height range is 24" – 32" (with levelers) or 26" – 34" (with casters).
