

The Universal Connector attaches anywhere along the horizontal rails of two perpendicular panels to create off-module connections.

WHAT'S INCLUDED

Universal Connectors (quantity as specified), each with 2 CAM-lock mechanisms, off-module bracket, reinforcing plate and fasteners.

NOTES

Off-Module Jumper (EG) required to pass power.

The number of Universal Connectors required for the creation of off-module panel connections is as follows:

Panel Height	Number of Universal Connectors
36"	4 (Use "04" in code)
42"	4 (Use "04" in code)
51"	6 (Use "06" in code)
66"	8 (Use "08" in code)
81"	10 (Use "10" in code)
