

The Double Stage Module for Height-Adjustable Table is placed in between Stages, or at the end of a Stage run. It conceals power and data wiring and creates a physical enclosure between adjustable legs down to the floor. Designed to accompany Navigate Height-Adjustable Built-In Base (YGU).

WHAT'S INCLUDED

1 stage with optional accessory beam, single or double side power and infeed grommet.

NOTES

Specific the width of the module 6" larger than the depth of the Height-Adjustable Table.

With both Single and Double Sided Power options selected the related electrical components must be specified separately.

If Accessory Beam option is selected, Stage Accessory Beam Cover (HTBR) must be specified separately.

When Infeed Grommets are specified, Grommet Covers are included.
