zones side chair overview

The Zones Side Chair is a familiar form that integrates within traditional hospitality settings and contemporary, corporate collaborative or workshop spaces. The simple back invisibly connects to the Beech wood legs. The footprint of the Side Chair is more compact than the Arm Chair.

finishes

For all finishes, see **Zones Finishes**.

zones side chair dimensions & material requirements

- For Conversion to Metric, multiply dimension by 25.4
- Zones Side Chairs have been designed and tested for users weighing up to 300 lbs

WEIGHT	
Zones Side Chair, 4-Wood Legs	15 lbs

COM/COL Material Requirement

The pattern, repeat and directionality of fabric may increase the amount of yardage required. Leather quantities should always be rounded up to the next hide size, as yields vary from 60-80% and are affected by the quality, size and shape of the hide, and by the location and quantity of blemishes.
